SCHOOLS AND UNIVERSITIES

Pick your shift

HUMANITY 2050

A 45–60 minute mission for a class or club. One question, one shift, one project on humanity2050.earth/you, one concrete action. The timings below add up to 55 minutes. In 45 minutes, keep each step a little shorter; the order stays the same.

5 min

1. The question

Open with the Humanity 2050 question: **If I had unlimited access to unlimited resources, what would make a difference in the world and for humankind, and what would it look like?** Talk in pairs, then share one thought with the room.

8 min

2. Choose a shift

Look at the five shifts. Each person or group picks one.

- 1 Clean Energy for All
- 2 Health & Longevity
- 3 A Living Planet
- 4 Whole-Person Education
- 5 Shared Wealth & Inner Peace

20 min

3. Research a project on You

Open **humanity2050.earth/you**. Choose one project in your shift. Answer the five “Educate everyone” questions from How we rate:

- Is the problem big?
- Is there evidence it works?
- What does 100 € achieve?
- Would it happen anyway?
- How much arrives?

12 min

4. Present

Each group has two minutes: the project, their answers, and one thing that surprised them. No need to agree on a single “winner”.

10 min

5. One concrete action

Close by choosing one action for this week — download a share card, visit the organisation’s own site, start the conversation at home, or apply to be an ambassador. Write it down.

Humanity 2050 is a personal, non-commercial project. It does not collect donations; if you later choose to give, you give on the organisation’s own site. This plan uses only the questions published on How we rate. It is not a certification and not financial, tax or legal advice.
